

In this update:

- NEW FEATURE – Delete old notification and messages
- Reminder – information on **unsuccessful tender** bids now available; **saved search** functionality and set your **local time zone**

Move to Recycle Bin

If your In-App notification mail box is getting full, you can now move any old messages to a Recycle Bin.

Messages will remain in your recycle bin until you delete them.

You can also reduce the number of In-App messages you receive by updating your notification setting.

✘ Unsuccessful

Do you want to know more information about why your bid on a **tender listing** was unsuccessful?

GDT now provides information to you when your tender bid is unsuccessful due to price.

Example: Your bid was unsuccessful because your maximum bid price was 0-10% to low.
